

Curriculum Statement of Intent- Modern Foreign Languages

Curriculum Intent

The purpose of the MFL curriculum at Gloucester Academy is to use a knowledge-led, research-informed approach to embed key vocabulary, grammar, phonics and cultural awareness. This, combined with carefully-planned sequencing to regularly revisit content and make links to support retention, progress and fluency will create confident, passionate linguists.

Through our curriculum, we intend to support students to:

- Progress from basics to mastery of a language, developing comprehensive knowledge for a wide-range of situations
- Become skilled listeners and speakers
- Be enriched and challenged: personally, and as global citizens
- Develop cultural awareness and appreciation
- Be prepared for KS4 and next steps in their education and professional lives
- Improve their understanding of, and literacy in, English
