**Re: School Closure**

Dear GA families

Thank you for your support in our decision to close the school on Friday 15th November 2024. This is due to an issue with the water control pump resulting in no water in the school and being unable to open safely.

This letter outlines the online learning that your child is expected to complete whilst they are unable to come to school. These lessons will help ensure that your child does not miss out on valuable learning as they climb their mountain to the best universities and professions. Students should complete this work in their homework books and will be asked to show it to their tutor on their return. There will be some great rewards given out for those who have completed the work and gone above and beyond in their learning.

The details of this letter set out below are designed to assist you and your child, so please share it with them.

Please be aware that the online links are split into year groups, have 5 lessons per day and are split into higher and foundation (for some subjects) where applicable. Please ensure your child selects the correct year group and tier.

If you encounter any issues please follow this link and select 5 subjects to complete in your homework books -
